

## Mt. SAC Health Careers Job Fair

On August 14, 2018, Mt. SAC's School of Continuing Education (SCE) hosted its first Health Careers Job Fair. Nearly 30 employers attended to recruit for various healthcare related positions and network with their colleagues.

This event served as a great opportunity for individuals who completed or are near completion of a health program to meet with potential employers. The business partners were appreciative of this targeted recruitment effort as well as the caliber and number of qualified students in attendance.

Shelly Laddusaw and Diana Lupercio of Mt. SAC's SCE Short-Term Vocational department coordinated the event. Learn more about their programs at <http://www.mtsac.edu/continuinged/noncredit/vocational/>
