This sparked a discussion on the makeup artist problem. Legally to be a makeup artist you must be licensed. However, people are getting certificates in makeup artistry and practicing. HLP AE could add makeup artistry to one of the cosmetology licenses (i.e. esthetician) to attract more students.

There was also a discussion regarding the organization of cosmetology instruction. Currently, multiple instructors are given part time hours that require them to leave their students and clients in the middle of a lesson. There are also too many students for one instructor to manage at one time. Suggestion – create externships for previous students who did well in the program. They can volunteer and help oversee the program when instructor time is limited.

Originally titled document “First Generation Adult Learners.” Document identifies barriers, skills, and needs of the students as the progress through adult ed. The group expressed the need for ongoing guidance of students, bridging activities, and cross-program collaboration.
